-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Terminal Disclaimer***

The terminal disclaimer filed on 6/21/05 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US Patent 6716109 has been reviewed and is accepted. The terminal disclaimer has been recorded.

### ***Claim Rejections - 35 USC § 112***

Claims 1 and 4-8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 recites the limitation "the longitudinal body axis" in line 5. There is insufficient antecedent basis for this limitation in the claim.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 4, 5, 7, and 8 are rejected under 35 U.S.C. 102(b) as being anticipated by Guinn (USPN 6209371).

Regarding claim 1, Guinn discloses a device having an elongated body having a longitudinal axis and a first and second end, a level mounted to the elongated body wherein the level has a longitudinal axis parallel to the longitudinal axis of the elongated

Art Unit: 3711

body and a bubble indicator, an attachment mechanism positioned on the elongated body, and a plurality of calibration on the elongated body wherein the calibrations are spaced apart from one another (See Figure 1-4). The attachment mechanism also comprises a notch in the elongated member wherein the notch includes a first and second opposite side walls and a first and second compressible member mounted to the first and second opposite side walls (See Figure 4).

Regarding claim 4, Guinn discloses the elongated body including an elongated calibration portion wherein the plurality of calibrations are located on the elongated calibration portion (See Figure 4).

Regarding claim 5, Guinn discloses the elongated calibration portion axis parallel to the longitudinal level axis (See Figure 4).

Regarding claim 7, Guinn discloses the level comprising an elongated transparent tube has a gas bubble therein (See Figure 4).

Art Unit: 3711

Regarding claim 8, Guinn discloses the attachment mechanism comprising a C-shaped notch in the elongated body. See the above regarding claim 1 for additional structure.

***Allowable Subject Matter***

Claims 9-17 are allowed.

Claim 6 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Response to Arguments***

Applicant's arguments with respect to claims 1 and 4-8 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 3711

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
